Ref. 3251

Universal NFC chip scanner (HF-RFID technology) that can be connected to the USB port of any PC.
Reads the NFC TRACK chips integrated into many C.A.M.P. products or applied by the user for the management of PPE using the C.A.M.P. G.T.S. - Gear Tracking System software/app or with other systems that support NFC technology.
Recommended for professional users as an alternative to using a smart phone for scanning.
